Re: DOCKET NO. 2012-383-WS

FILED  
5-8-13  
CLERK'S OFFICE

Dear Sir or Madam,

Please find enclosed, petitions signed by residences of Whites Creek and Lincolnshire subdivisions located in the county of Georgetown, SC 29440. We are requesting that a meeting be held in the evening/night hour in the county of Georgetown, SC 29440, regarding the proposed rate increase for sewer service operated by Carolina Water Service, Inc. (CWS).

I have enclosed a copy of my March 2013 water bill issued by The Rural Community water District of Georgetown County and an official letter issued by **The Georgetown County Water and Sewer District which shows the cost for sewer service to be \$16.18 based on usage.** I am a conservative person - My current water bill reflects past billings.

Speaking on behalf of my neighbors, we feel Carolina Water Service is taking advantage of low income homeowners. Even when the home is not occupied for a month or more, CWS charges for services that are not used. It is evident that CWS has mismanaged the sewer system and fees collected, failing to properly maintain the sewer system. For this reason, **we ask that the State of South Carolina dissolve Carolina Water Service, Inc.** and consider a reputable company such as Georgetown County Water and Sewer District which operates within the same community it serves.

Respectfully submitted,

*Claudine T. Drayton*

April 17, 2013

Dear Ms. Drayton,

Per our conversation, I understand that your water usage for the billing period, February 28, 2013 to March 29, 2013, was 1,590 gallons. As you know, the District bills sewer volume charges according to water usage. Since the District's minimum usage billed is 2,500 gallons, the minimum sewer usage that we bill is \$7.78 (2,500 gallons x \$3.11). Also, all of our sewer only customers are billed a customer charge of \$4.66 and a sewer availability charge of \$3.74 each month, in addition to sewer volume. For example, if you were a customer of GCWSD, your March 2013 bill (using the above usage of 2,500 gallons) would be as follows:

Customer Charge	\$4.66
Sewer Availability	\$3.74
Sewer Volume	<u>\$7.78</u> (2,500 gallons x \$3.11)
<b>TOTAL</b>	<b>\$16.18</b>

Sincerely,

Tracy C. West  
Accounting Supervisor
